DAN F. ARNETT
CHIEF OF STATE

November 7, 2013

Subject: South Carolina State Universal Service Fund (USF) Docket No. 1997-239-C
Effective December 1, 2013- Revision to State USF
USF Factor Change for Fund Year 2013-2014

Dear Regulatory Manager:

As administrator of the State USF, ORS is required to annually determine the level of contributions required and assess the contributing carriers to meet the needs of the State USF.

The State USF support amount for the fund year 2013-2014 is \$29,744,946. For the year ending December 31, 2012, reported retail end users revenues of \$1,168,598,420 were used to calculate a new USF contribution factor.

The contribution factor for the fund year 2013-2014 will be **2.5454%**.

The Public Service Commission of South Carolina's guidelines allow a carrier contributing to the State USF to flow through its obligations to retail end users at a rate not to exceed the contribution factor.

The new factor should become effective and may be assessed on retail end user billings rendered on or after December 1, 2013.

Should you have any questions concerning the State USF, please contact Jim McDaniel at (803) 738-0812, or me at (803)737-0819.

Sincerely,

Chris Rozycki
Deputy Director
Telecommunications
